PDF: 

Legitimacy: High Confidence

Verification: confirmed (WebFetch)

Date: 2026-05-21

A) ROLE SUMMARY

Dimension	Detail
Archetype	None of the 6 standard archetypes - pure finance/reporting specialist
Domain	Finance / Accounting / ESG reporting
Function	Execute / comply / report
Seniority	Mid-senior individual contributor (4-5 years experience)
Remote	Office-first, Amsterdam - no remote-only
Team size	Part of Global Reporting team
TL;DR	A qualified accountant who prepares IFRS financial statements, monthly management reports, and ESG disclosures for a growing listed fintech.

B) MATCH WITH CV

Requirement Mapping

JD Requirement	CV Match	Strength
4-5 years in accounting/audit/financial reporting	No accounting, audit, or financial reporting background in CV	None
ACA, ACCA, CIMA, or CA(SA) professional qualification	No such qualification - Christiaan holds Prince2, Scrum, ITIL, PSPO I	None
IFRS financial statements preparation	No evidence	None
Monthly management reporting processes	Budget management in project roles; grant writing and financial administration cited	Weak analogy only
ESG and sustainability reporting	CSRD/CSDDD/EUDR compliance tooling (VCH); Viridis sustainability focus	Adjacent - but design of compliance tools, not production of ESG disclosures
Banking/financial industry background (preferred)	Payments-adjacent knowledge from Adyen research; fintech supply chain finance context	Weak
Stakeholder engagement + project management	"Project & Program Management (Expert)"; cross-functional coordination across all roles	Strong - but irrelevant without the core accounting credentials

Gaps

Gap	Blocker?	Mitigation
-----	----------	------------

No accounting/audit qualification (ACA, ACCA, CIMA)	Hard blocker - this is a prerequisite, not a nice-to-have	None
No IFRS financial reporting experience	Hard blocker	None
No financial statements preparation history	Hard blocker	None
ESG reporting framing only	Role needs ESG reporting practitioner, not tool builder	Cannot bridge without credentials

Summary: 3 hard blockers. This is a professionally credentialed accounting role. No path to application.

C) LEVEL AND STRATEGY

This section is not applicable. The role requires professional accounting qualifications (ACA, ACCA, CIMA, CA(SA)) that Christiaan does not hold and cannot acquire within a job application cycle. There is no "sell senior" strategy available here - the blockers are credential-based, not experience-based.

Verdict: Do not apply.

D) COMP AND DEMAND

Item	Data	Source
Financial Reporting Specialist Amsterdam	€55,000-€80,000 gross/year depending on qualification and experience	Glassdoor NL
ESG overlay premium	+5-10% over pure financial reporting	Market norm
Christiaan's target	€65,000-€90,000	_profile.md
Relevance	Irrelevant - role is not applicable regardless of comp	N/A

E) CUSTOMIZATION PLAN

Not applicable. Role is outside candidate's qualification scope. No customisation would bridge the hard credential gap.

F) INTERVIEW PLAN

Not applicable. Do not invest time in preparing for this role. The ACA/ACCA/CIMA requirement is a screening filter that will eliminate the application before any interview stage.

G) POSTING LEGITIMACY

Assessment: High Confidence

Signal	Finding	Weight
Posting age	First published 2026-02-24, ~87 days old at evaluation	Neutral (long, but senior specialist roles legitimately take time to fill)
Apply button	Active via Greenhouse API	Positive
JD specificity	Named standards (IFRS), named qualifications (ACA, ACCA, CIMA, CA(SA)), named functions (Group Finance, Enterprise Risk, Legal)	Positive
Requirements realism	Credential-based requirements are normal and enforceable	Positive
Company signals	Adyen profitable, publicly listed - this is a real compliance/reporting need	Positive

Reposting pattern	No prior appearance	Neutral
-------------------	---------------------	---------

Context Notes: The 87-day posting age is notable. This type of credentialed specialist role can take longer to fill because the candidate pool is small and Adyen's fintech-specific payments knowledge is an additional filter. The posting age does not suggest a ghost job - it suggests a genuinely difficult hire.

RECOMMENDATION

Score: **1.8/5** - Hard stop. Three credential blockers make this role inapplicable regardless of other dimensions. The ESG component is adjacent to Christiaan's work on compliance tooling (CSRD, CSDDD, EUDR) but the role requires ESG reporting production, not tool design. The ESG sustainability angle is not enough to bridge the accounting credential gap.

Do not apply.

The 1.8 score reflects: (1) hard blockers on credentials; (2) no path to mitigation; (3) full-time office-only Amsterdam on top of that. The only positive signals are: Amsterdam location, Adyen's quality as an employer, and partial ESG relevance.

H) CULTURE, PERSONALITY & LONG-TERM FIT

H1 - Org Culture Assessment

Stage and type: Large listed fintech, same org as reports 011 and 012. The Finance/Global Reporting team is a compliance-heavy, regulation-driven department. This is the most process-constrained team type in a corporate org: financial reporting demands accuracy, repeatability, and standardization above all else.

Culture signals: The JD language signals precision, compliance, and incrementalism: "IFRS," "QA standards," "accounting standards," "regulatory reporting." There is no innovation mandate, no build-from-scratch language, no facilitation component. The tone is technical and procedural.

Physical/work environment: Office-first, Amsterdam. Full-time, no remote.

Match against 2-year vision: Near-zero. This role is the structural opposite of the hackerspace vision in every dimension: large org, compliance-constrained, repetitive quarterly/annual cycles, no building, no facilitation, no community.

H2 - Personality Fit Table

Dimension	What the role requires	Christiaan's profile	Match
Starter vs. finisher	Finisher-only: ongoing production of accurate financial reports on fixed cycles	ENFP-T starter	Poor
Variety vs. repetition	High repetition: quarterly and annual reporting cycles repeat indefinitely	Thrives on variety, depletes on repetition	Poor
Autonomy level	Low: constrained by IFRS standards and regulatory requirements	Needs ownership	Poor
Build vs. maintain	Pure maintenance: comply, report, maintain	Builder identity	Poor
Fractional fit	Full-time, office-first	Optimal: fractional	Poor
Energy spike tolerance	Finance/compliance culture: values caution and precision, not energy spikes	Front-loaded high energy may read as a risk in this environment	Poor
Team size	Global Reporting team inside a large corp	Small team preference	Poor

Flags: Multiple. Engagement risk. Maintenance trap. Full-time exclusivity. Heavily process-constrained with no creative space. This is the hardest possible fit for the ENFP-T with ADHD profile.

H3 - Values and Mission Alignment

No alignment. ESG reporting is adjacent to sustainability work Christiaan genuinely cares about, but this role produces ESG disclosures under accounting standards - it is not designing or building sustainability systems. The fintech domain generates no intrinsic motivation. The work is entirely transactional.

H4 - Energy Analysis

Energizers:

- Essentially none that connect to Christiaan's identity

Likely drains:

- Pure compliance reporting: the maximum expression of process-constrained, repetitive work
- Zero facilitation, design, building, or community component
- Full-time Amsterdam office, single employer
- Domain (fintech financial reporting) generates no intrinsic energy
- ADHD risk is at its highest in precisely this type of role: rule-bound, repetitive, no novelty

H5 - 18-Month Durability Test

Verdict: Short-term fit - this is not a fit at any time horizon

This role is disqualified on credentials before personality fit is relevant. If credentials were somehow met, the personality fit analysis would conclude the same: this is not a 6-month fit, let alone an 18-month one. The quarterly reporting cycle would become depleting within weeks.

H6 - Personality-Specific Red Flags

Red flag	Present?	Severity	Context
Role is primarily maintenance/ops	Yes - pure compliance execution	High	Maximum expression of maintenance trap
Solo sales of an unready product	No	N/A	Not applicable
Full-time exclusivity expected	Yes	Medium	Office-first, no flexibility
Large corporate, slow decision cycles	Yes	Medium	Corporate finance function
Governance/board role in declining org	No	N/A	Adyen is growing
Ceremony-only Scrum Master	No	N/A	Not an agile role

H7 - Fit Verdict

The honest case for this match:

There is no case. The role requires credentials Christiaan does not hold and would not enjoy using. The culture is the structural opposite of what energizes him.

The honest case against:

Every dimension is a mismatch: credentials, domain, culture, personality, format, and vision alignment. This is a hard no at every level of analysis.

Note: Score of 1.8/5 already reflects this accurately. Personality/culture analysis confirms it.

Overall personality/culture fit: Poor

JOB DESCRIPTION (ARCHIVED)

Archived 2026-05-21 - original posting may be removed after offer closes

Title: Financial and ESG Reporting Specialist

Location: Amsterdam

Department: Finance

Company: Adyen

First published: 2026-02-24

Requisition ID: JR_4153

This is Adyen

Adyen provides payments, data, and financial products in a single solution for customers like Meta, Uber, H&M, and Microsoft - making us the financial technology platform of choice. At Adyen, everything we do is engineered for ambition.

For our teams, we create an environment with opportunities for our people to succeed, backed by the culture and support to ensure they are enabled to truly own their careers. We are motivated individuals who tackle unique technical challenges at scale and solve them as a team. Together, we deliver innovative and ethical solutions that help businesses achieve their ambitions faster.

Financial & ESG Reporting Specialist

Our Financial & ESG Reporting team, which forms part of the wider Global Reporting team is looking for a Financial & ESG Reporting Specialist with experience in the payments and/or finance industry. The Financial & ESG reporting team is responsible for financial and sustainability (ESG) reporting. As Adyen grows, so does the complexity of accounting and reporting, so we are looking for an enthusiastic team member to help us navigate this constantly evolving landscape.

As a Financial & ESG Reporting Specialist, you will be primarily responsible for ensuring compliance with applicable accounting standards, preparation of Adyen's Financial Statements and working closely with teams across the business. Although Financial reporting will be your key focus, as a member of the wider Reporting team, you will be expected to think beyond the impact of financial reporting and also support the team across ESG and Regulatory reporting topics on an ad-hoc basis.

The successful candidate will play a central role in the Group Finance team as well as working as a business partner with a wide range of teams, including Group Finance, Enterprise Risk, Legal, Compliance and many others and provide pragmatic advice and guidance on technical financial reporting topics.

What you'll do

- Preparation of financial reports, such as quarterly, half and full-year financial statements, in accordance with IFRS; Support the annual report process and other relevant internal and external financial and non-financial reports;
- Coordinate and prepare Adyen's monthly management reporting processes;
- Support in cross-over financial and ESG topics within the team.
- Support in translating the impact from complex transactions and new products into financial reporting and work cross-functionally to assess the impact in finance (e.g. regulatory reporting; controlling, tax);
- Monitor changes in accounting standards and regulations applicable to Adyen, and coordinate with other functions the implementation of such changes.
- Strengthen connections between the business and reporting team, understanding the impact of new products or areas of expansion, supporting business growth through regulatory strategy;

Who you are

- You have between 4-5 years' experience in accounting/audit/financial reporting functions with either ACA, ACCA, CIMA, CA(SA), qualification or equivalent;
- You're comfortable working in unstructured environments and take initiative in managing tasks. Navigating ambiguity comes naturally, and you bring a thoughtful approach to shaping processes where clarity is needed. You have a strong sense of responsibility, helping you move projects forward independently;
- Comfortable talking straight and challenge the status quo, specifically with the ability to interact with a variety of internal and external stakeholders from varying seniority, disciplines and cultures;

- Self-driven and proactive, always searching for ways to translate the reporting requirements to Adyen's perspective;
- Excellent project management skills and stakeholder engagement;
- A strong plus: You have previous experience in the banking or financial industry and have an understanding of the payments industry;

Our Diversity, Equity and Inclusion commitments

Our unique approach is a product of our diverse perspectives. This diversity of backgrounds and cultures is essential in helping us maintain our momentum. Our business and technical challenges are unique, and we need as many different voices as possible to join us in solving them - voices like yours. No matter who you are or where you're from, we welcome you to be your true self at Adyen.

Studies show that women and members of underrepresented communities apply for jobs only if they meet 100% of the qualifications. Does this sound like you? If so, Adyen encourages you to reconsider and apply. We look forward to your application!

What's next?

Ensuring a smooth and enjoyable candidate experience is critical for us. We aim to get back to you regarding your application within 5 business days. Our interview process tends to take about 4 weeks to complete, but may fluctuate depending on the role. Learn more about our hiring process [here](#). Don't be afraid to let us know if you need more flexibility.

This role is based out of our Amsterdam office. We are an office-first company and value in-person collaboration; we do not offer remote-only roles.
